

# Running Red Lights

## Why this is a Road Safety Issue:

- ▶ Collisions which occur as a result of running red lights have a great risk of causing death or injury.

## What the ACT Government is doing:

- ▶ Implementing awareness campaigns to encourage all road users to understand the road rules.
- ▶ Installing red light cameras at appropriate intersections to detect and identify road users who put others at risk.

## What You Can Do:

- ▶ When approaching a green light, keep to the speed limit and be prepared to stop if required.
- ▶ Remember that you are required to stop at a yellow light if it is safe to do so.
- ▶ You must stop for a red light, before the stop line.
- ▶ Once stopped you must not cross the stop line until the traffic lights show a green light or green arrow.
- ▶ Remember, if you do not stop for a red light you risk a collision which could injure or kill.
